Software Engineer with 10+ years of experience building full-stack and desktop applications using C#, PostgreSQL, and Vue.js. Proven background in industrial automation, inventory/logistics systems, and startup environments. Comfortable owning features end-to-end, from requirements through deployment. Strong foundation in OOP, databases, and system integration.

Work Experience

- SW Engineer – Gulf Stevedoring - Remote (Jul. 2025 - Current)
  - Co-developed a full-stack web application for tracking shipping containers and pallets using Postgres, C#, Vue.js, TypeScript
  - Planning new features to speed up and reduce error rates on existing processes
  - On call for support
- SW Engineer – Soochi Software (startup) - Remote (Jul. 2023 - Jul. 2025)
  - Designed and built a full-stack multi-tenant church management system used for tracking members, events, and internal data across the organization using Postgres, C#, Vue.js, TypeScript
  - Designed backend data models and APIs to support multi-tenant architecture and scalable growth
- SW Engineer/I.T. – Rohinni Inc. – Liberty Lake, WA (Nov. 2016 - Jan. 2024)
  - Designed and maintained a C# desktop application to control SMT manufacturing equipment, including XY positioning and machine-vision integration
  - Delivered a second-generation control system improving reliability and maintainability of production workflows
  - Built a full-stack C# web application to track inventory and production-line status, improving operational visibility
  - Served as on-demand system and network administrator supporting Windows infrastructure and internal tools
- Stockroom/Shipping – Advanced Input Systems (May. 2014 - Nov. 2016)
  - Kept assembly lines running by stocking parts, while maintaining accurate counts
  - Collaborated with multiple departments to ship boxes and LTL freight globally
- Urbanspoon (now Zomato) – Developer Internship (Aug. – Sept. 2013)
  - Developed E2E tests

Education

- North Idaho College – CITE Program (2016 - 2018)
  - Associate in Applied Science

- Kootenai Technical Education Campus (2012 - 2013)
  - Computer Repair and Troubleshooting
- Lake City High School (2009 - 2013)

Skills

Languages & Frameworks

- C# (.NET, Entity Framework, WPF, Winforms)
- JavaScript (Vue.js, TypeScript, jQuery)
- HTML, CSS
- REST API, some GraphQL

Databases

- PostgreSQL
- SQL Server
- MySQL

Tools & DevOps

- Docker
- Git, Jira
- AWS (EC2, ECR, S3)
- GitHub Actions (CI/CD)
- RabbitMQ
- Visual Studio
- Visual Studio Code

AI Agents

- Claude Code
- ChatGPT

Systems / IT

- Windows system administration
- Networking
- Computer hardware
